"Has been more destructive to human health and life than war, pestilence and famine combined." So said a digiogulahed writer many years ago and it is as true today as then. The poor victim of Biood Disease is drugged with Necury to one the malady, and then doed with iodides to cure him of the M. reurial Poisoning; but instead of any relief, the first breaks down his general health and makes him, a cripple, and the other ruins his digestive organs. # WANTED,

Five years ago I found on my plantation a colored man who was badly diseased. He stated that five years before he had contracted a violent case of Blood Potton, and had been treated by many physicians, all failing to cure him. I treated him with Swift's Specific, and in a short time he was sound and well, and has not had a symptom of the disease since.
